DETAILED ACTION

Response to Amendment

1. This Office Action is responsive to the amendment filed on 9/15/2003. Claims 4-6 have been amended. Claims 4-7 and 9-17 are pending. Claims 9-17 are withdrawn from further consideration as being drawn to a non-elected invention. In response to applicant's arguments that the scope of claims 4-7 is unchanged from that of the parent application and therefore the double patenting rejection should be withdrawn since a restriction requirement led to the cancellation of claims 4-7 and 9-17, applicant is reminded that claims 4-7 were subject to an election of species requirement, not a restriction requirement. Applicant cancelled claims 4-7 prior to indication of allowable subject matter in claim 1 of the parent case. Nevertheless, the scope of claims 4-7 of the parent case was interpreted differently for the election of species requirement than that of present claims 4-7 which are not subject to the election of species requirement.

Original claims 4-6 in the parent case were interpreted as follows for the election of species requirement:

Original claim 4 in the parent case was interpreted as only drawn to the cobalt chloride and nickel chloride species.

Original claim 5 in the parent case was interpreted as only drawn to the cobalt iodide and nickel iodide species.

Original claim 6 in the parent case was interpreted as only drawn to the cobalt sulfide and nickel sulfide species.

Art Unit: 1745

In contrast, present claim 4 is drawn to metal fluoride, metal chloride, metal iodide, and metal sulfide, cobalt chloride, and nickel chloride species.

In contrast, present claim 5 is drawn to the metal fluoride, metal chloride, metal iodide, metal sulfide, cobalt iodide, and nickel iodide species.

In contrast, present claim 6 is drawn to the metal fluoride, metal chloride, metal iodide, metal sulfide, cobalt sulfide, and nickel sulfide species.

The species metal fluoride, metal iodide and metal sulfide were examined in the parent case and therefore were not subject to the election of species requirement since these species were also allowed (see claim 1 of U.S. Patent No. 6,322,925 B1).

Present claims 4, 5, and 6 are awkwardly claimed since it appears that a broad range and a narrow range are claimed in the same claim. For example in claim 4, it appears that the species cobalt chloride and nickel chloride are claimed in addition to the genus species metal chloride.

Since the allowed species that were examined in the parent case are present in claims 4-7 of the instant application, the double patenting rejection made is proper.

Claims 4-7 are finally rejected for reasons of record which are reiterated for applicant's convenience.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686

Art Unit: 1745

F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 4-7 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 4 of U.S. Patent No. 6,322,925 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1 and 4 of U.S. Patent No. 6,322,925 B1 disclose common subject matter with instant claims 4-7 and anticipate instant claims 4-7.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
